PROFESSIONAL EXPERIENCE

Technical Project Manager | Defem Autocare Ltd | Lagos, Nigeria. October 2022 to Present |
Reported directly to COO

PROBLEM: No real-time inventory. 45 sec queries. 23 emergency orders per month.

WHAT I DID:

- Led 3 vendors and 2 internal developers. Built inventory platform in 3 months. Cut features by 30 percent. Got 95 percent adoption in 30 days.
- Fixed database on 2.3 million rows. Cut query time from 45 seconds to 8 seconds, 82 percent faster. Enabled real-time reporting for the first time in company history.
- Built Python forecast model. Emergency orders dropped from 23 to 8 per month. Saved 18000 dollars per year.
- Used Lean Six Sigma to redesign procurement. Cut manual work from 40 to 14 hours per week. Supplier on-time from 87 percent to 98 percent.
- Trained 12 people on SQL and Power BI. Support tickets dropped 30 percent. Two team members promoted.
- Built 8 Power BI dashboards. First version failed at 40 percent. Rebuilt to 95 percent adoption.

RESULT: 95 percent adoption, 82 percent faster, 18000 saved, 2 promoted.

Project Manager & Data Systems Lead | Federal Ministry of Works | Abuja, Nigeria

January 2022 to October 2022

PROBLEM: 10000 records across 4 directorates. Zero downtime required.

WHAT I DID:

- Migrated 10000 records over a weekend. Saturday cutover with rollback plan. Zero data loss, zero downtime, passed audit.
- Added indexes to database. Search time from 15 minutes to under 30 seconds, a 97 percent improvement.
- Built compliance dashboards. Cut audit prep from 3 weeks to 3 days. Supported 2 audits with zero findings.
- Coordinated legal, finance, operations, and compliance teams with different success criteria.

RESULT: Zero audit findings. Zero data loss. Zero downtime.

Data Consultant | Independent | Remote (Nigeria / Global) , January 2022 to Present

- Retail client: Cut onboarding time by 40 percent.
- Logistics client: Combined 3 incompatible telematics systems into one dashboard. First ever unified fleet dashboard.

TECHNICAL PROJECTS

- dbt plus Snowflake: Refresh from 45 minutes to 3 minutes. Caught 12 percent of anomalies.
- AWS ETL Pipeline: Processes 10000 records per day. 99.9 percent uptime.
- ArmorAI: Handles 1000 API calls per day. Live demo.
